## Location Service and Send SMS

### 1. Mainpage with real time location

The screenshot shows an Android application interface with a black background. At the top, there is a red rectangular button with the text "Send Location SMS" in white. Below this button, there are three text input fields. The first field is labeled "Longitude" and contains the value "-79.92361897919245". The second field is labeled "Latitude" and contains the value "40.431103297266525". The third field is labeled "Altitude" and contains the value "286.15631556958505". The status bar at the top of the screen shows various icons including a location pin, Wi-Fi, and battery, along with the time "1:34". The bottom of the screen shows the standard Android navigation bar with back, home, and recent apps icons.

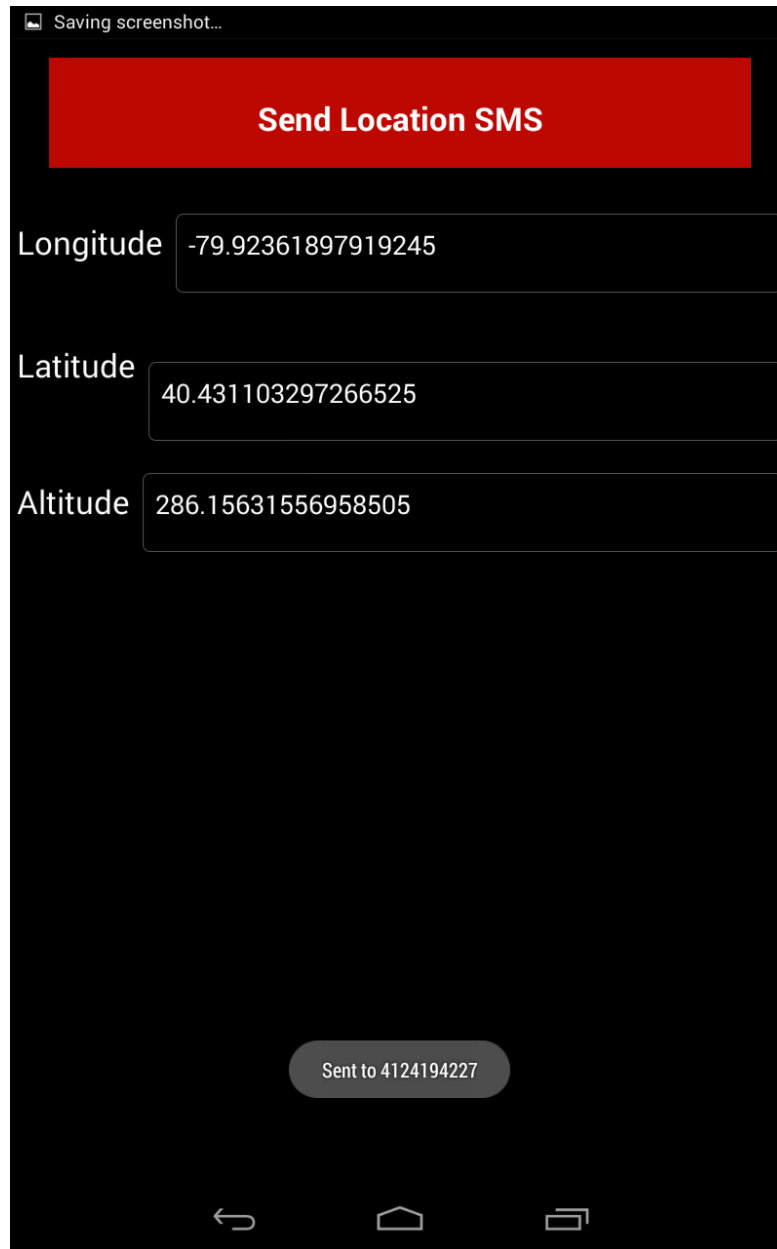

Send Location SMS

Longitude -79.92361897919245

Latitude 40.431103297266525

Altitude 286.15631556958505

2. After send SMS message, you could see a toast

3. On AVD, there is no location service so a toast will tell you that.
